

“Crystal Automatic Moonlight Static”

Past’s of overcast October’s-flash,
cast in aromatic astral-magic,
golden-amber-moonlight static,
crystal automatic-
-cosmic fever-dreams,

of a hyperspace interlaced black-magic interface,
interweaving crystalline Halloween nightmares,
of magic bean candy fiends’ banana-clip magazines,
and gamma-ray sun-beam steam-machine,
midnights,

of candy-flipped acid-trips of triple-dipped blotter hits,
and crystal-static automatic black-magic aesthetics,
enticing me, frightening me, with memorex-memories,
of childhood Halloween’s, embodied in ecstasies.
