AN ARTISTIC EFFIGY OF AN INEFFABLE COSMIC TRUTH

---

## FOREWORD

FIGMENT A A T A is an art piece developed by the channeled spirit energy known as *Tad P. Buffalo*. This text should be thought of as a *satirical and eccentric work of fiction*, meant to be read in a tone of divine sarcasm. However, a deeper understanding of this text will reveal, in fact, that an ineffable cosmic truth exists within art which can not be denied, including herein.

The following text may hallow or transfix the spirit which consumes it, however, it can not harm the spirit, or the earthen vessel within which one's spirit dwells. I ask that the reader continue with an open mind, and understand that this is a form of art.

## AN ARTISTIC EFFIGY OF AN INEFFABLE COSMIC TRUTH

### G N O S I S

*I am an unbound spirit in possession of an ineffable cosmic-wisdom . . .*

By nature of the ineffable, any explanation regarding the properties or characteristics therein, is an *impossibility*.

*Herein lies the unwritten wisdom of the unknowable truth*

Within this text, I wish to imbue the high-order logic of the *ineffable cosmic-wisdom*. This gift may only be received by a worthy spirit of intellectual purity, and of a proper form. However; *the sacred knowledge contained herein shall remain incomprehensible and unattainable to spirits of an unworthy or impure nature, and those who possess intentions of a malformed prerogative.*

### T H E E F F I G Y

The initial configuration of one's soul is that of a primitive form, rooted in flawed logic, resulting in a distorted perception of "reality", and the imperceptibility of the spiritually ubiquitous properties and forces by which the cosmos is perpetuated. A higher-order formulation of this logic exists, and may be realized by those who seek it.

An awareness of nature, internally and externally, and of its ineffable aspects, may guide one in the pursuit of this cosmic-wisdom.

The artist engaged in the *creative-act* may experience a *creative-spark*, emanating from within, a spiritual fragment which, as a result of the *creative-process*, becomes embedded throughout the artform. This allows the artform to act as a conduit through which cosmic energy, and other cosmic truths, may pass.

As the worthy embark upon this *odyssey of the spirit*, examine the sacred text upon which your transfixion resides, and **B E H O L D** : *a divine light; fragments of the artist's soul!* Within this divine refulgence, a sacred knowledge is cast, *are you capable of bearing the truth?*

Achieving this re-configured state requires accepting a fate which is indistinguishable from death. The undelivered-ego must be relinquished by the spirit, and, if the soul is pure, a transfiguration, and subsequent resurrection, will unfurl, —a new configuration of the ego will emerge, and by it, the earthen vessel from which it was expelled, will be permeated.

An immaculate conceptualization of the ineffable emerges before me, formed in undeniable *f i g m e n t*, and the sacred formula from which the highest-logic is derived, becomes obvious. This initiates the reconfiguration and subsequent deliverance of the ego on which my spiritual foundations rest, and re-ignites the inner-light through which my soul manifests.

Liberated cosmic energy, free from the confines of an undelivered subconscious. A de-unification and subsequent re-initialization of the ego into a conduit through which cosmic energy, and other cosmic truths, may pass. *A new perspective of the purest and most bohemian variety.*

This mental state is one of high-order, of ineffable form, and certainly of a perplexing nature to the majority of souls which remain spiritually mis-aligned.

As the inner workings of *Tad Pole Buffalo's* mind begin to u n f o l d , an unknowable void begins to form within the confines of eternity, and the true nature of infinity is relinquished from an ineffable grip . . . . .

A final wisdom is granted from cosmic forces beyond all knowledge, manifesting a reality in which thoughtforms become the sacred artifacts of a magical continuum, ordained in the life force of what the Native Americans refer to as, *The Great Spirit*.

Tad is transported across this magical continuum, into the operating room of a doctor with undiagnosed and untreated psychosis. The needles in his arms wade against the rising tide of the astral plane which harbors his soul. His arteries constrict, his consciousness decouples from its bounded state, consequently merging with logic of a higher order, inconceivable to the unworthy, and incomprehensible to the uninitiated.

Unshackled from the clutches of physical reality, *Tad Pole Buffalo* can only be bound by the spiritual limits of the *c o s m i c   i m a g i n a t i o n*
